

DAZOR

The Dazor Floating Arm Circline Magnifier Lamp is available with a variety of base designs. In settings where tasks are placed in various locations, the floor model with ball-bearing casters is the design of choice.

Circline Magnifier Lamp

The Dazor Circline Magnifier Lamp is available in all the colors shown. In the interest of continual product improvement, color selection may be altered without prior notice.

The Dazor standards of superior workmanship and specific task adaptability come together in this circular magnifier lamp. The Circline illuminated magnifier allows total visual freedom without eyestrain or peripheral visual distraction, for any detailed work or inspection. With the unique action of the Dazor Floating Arm, the Circline Magnifier Lamp provides maximum visual assistance when clarity and accuracy are vital. In tasks as diverse as manufacturing, toolmaking, jewelry repair, precision inspection, laboratory procedures...as well as reading, model building, needlework, stamp collecting...and for the visually impaired...the Dazor Circline Magnifier Lamp facilitates clear and effortless vision.

Ordinary newsprint
without magnification.

Newsprint enlarged by the
standard 3-diopter lens.
Provides magnification
(+75%) at a focal length
of 13".

Newsprint enlarged by
3-diopter lens, plus ADD
A LENS magnification
(+275%) at 3 3/4" focal
length.

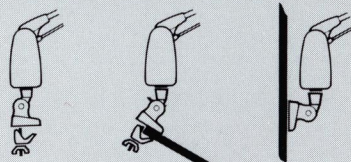

Lamp comes with a 3-diopter
lens providing a magnification
(+75%) at a focal length of
13". The easy-to-attach Add-A-
Lens M-1400 accessory, used
with the standard 3-diopter
lens, increases magnification
(+275%) at a focal length of
3 3/4"

CIRCLINE MAGNIFIER LAMP

The double-convex lens of this precision lamp is made of highest quality crown optical glass, expertly ground and polished. The Circline fluorescent tube sheds even, shadow-free light from all sides, for optimum brightness without harshness. An optional 5-diopter lens is available, providing magnification (+125%) at a focal length of 8". To order, add the suffix -5 to the model number (example: M-1408-5). For T9 22W Circline Tube.

1408-30 CIRCLINE TUBE SHIELD (OPTIONAL)

Polycarbonate-tough, patterned shield, to cover the Circline tube for protection from possible breakage (required by some local regulations or codes). Also prevents damage to tube and lampholder when Magnifier Lamp is used with certain tools or assembly components. Easily installed with knurled nuts provided in lamp head.

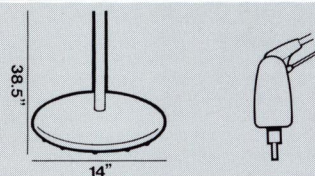

UNIVERSAL MODEL

M-1408 34" ARM
M-1409 24" ARM
Packing: One per ctn.
Weight: 11 lbs.

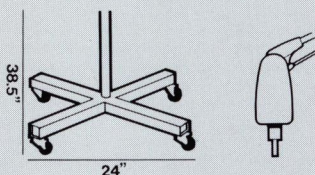

DESK MODEL

M-1470 18" ARM
Packing: One per ctn.
Weight: 19 lbs.
